

Crisis Prevention Institute *Initial* Training

The program is a safe, non-harmful behavior management system designed to help human service professionals provide the best possible Care, Welfare, Safety, and SecuritySM of disruptive, assaultive, and out-of-control individuals even during their most violent moments.

In addition to successfully demonstrating the application of physical intervention skills, individuals will be required to pass a post-test prior to being certified.

You will have a workbook to take notes in as well as pre and post-tests to complete so please bring something to write with. Also, wear comfortable shoes (tennis shoes are best). When the physical restraint portion of the class is taught and practiced, you will be asked to remove scarves, ties, and any jewelry that could scratch.
